Criminal Cases
Civil Litigation
Investigations

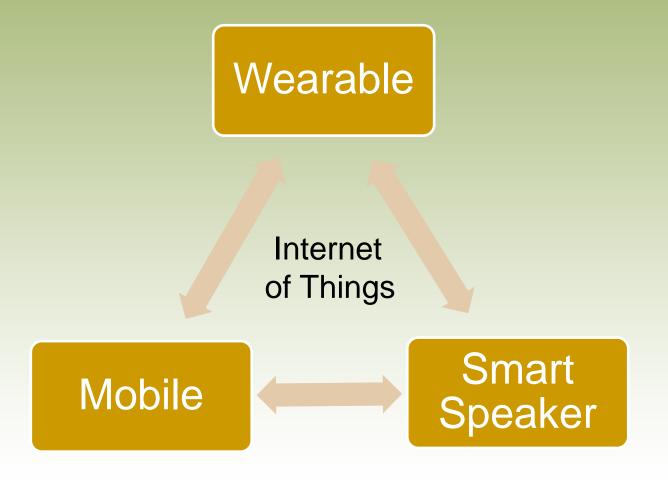

Why Mobile Evidence?

"My day starts and stops with my phone. I am not my phone, but my phone is a <u>reflection of me</u>. It does a pretty good job of taking my life and folding it up into a nice little lightweight, pocket-sized summary. It's almost like I am holding a <u>copy of my brain</u> in my hands."

Derek Smith, Louisville Med-School Student (as reported by CNN)

Why Mobile Evidence?

"We must stop kidding ourselves that handhelds don't hold unique or discoverable information. Look up from your phones and tablets! *They are now the center of our digital lives.*"

Craig Ball, Esq.
Dem Phones, Dem iPhones

Why Mobile Evidence?

"Phones contain more probative evidence per byte of data than computer hard drives do."

Gary C. Kessler, Ph.D.
